

*At Barnard Levit your child's Eyecare is our priority. Our qualified and experienced dispensing opticians pride themselves in providing a highly professional service with a wide range of frames and lenses.*

This includes:

- ◆ Separate children's dispensing room.
- ◆ Huge variety of frames in all sizes from birth.
- ◆ Separate toddler and teen ranges.
- ◆ Outside prescriptions both Private and NHS are welcome.
- ◆ We work alongside several Paediatric Ophthalmologists.
- ◆ Frames within the NHS allowance available.
- ◆ Professional advice on frame and lens selection.
- ◆ Warranty on certain lenses and frames.
- ◆ Frame and facial measurements taken to ensure optimum fit and vision.
- ◆ Bespoke frames.
- ◆ Adjustments following purchase at no extra charge, no appointment necessary.
- ◆ Sports and Protective eyewear both with and without prescription.
- ◆ Discounts for spare and additional pairs.

## Children's Frames

We carry one of the largest frame collections for children in the UK.

These include frames which are hypoallergenic, flexible, soft, strong and durable, highly fashionable and even those completely on the NHS.

**Some of the ranges that we carry:-**

- ◆ **Adidas**
- ◆ **Bbig**
- ◆ **Blitz Kids**
- ◆ **Eye Stuff**
- ◆ **Lilliput**
- ◆ **Lindberg**
- ◆ **Mexx**
- ◆ **Miraflex**
- ◆ **Rayban**
- ◆ **Tomato Specs**
- ◆ **Wimbledon Junior**
- ◆ **Wolf Cubs**
- ◆ **Young Wills**
- ◆ **Zoobug**

## Children's Lenses

The choice of lenses for your child will depend on their prescription (which you will need to bring with you).

We will advise you on what is most suitable and discuss the different options that are available.

In particular you may want to consider:

1. **Polycarbonate or Trivex lenses**  
These are virtually shatter proof providing your child with the ultimate protection and you with the assurance that your child's eyes are safe at all times, from any accidental damage. They also include 100% UV protection and are 30% lighter and 20% thinner than standard plastic lenses.
2. **Photochromic or Transition lenses.**  
These go dark in the sun providing comfort for your child, in addition to protecting their eyes from harmful UV rays which is crucial at this time. Most UV damage occurs to the eye by the age of 18.
3. **A Hard coat or Anti Reflection Coating** to provide extra protection against scratching and comfort from glare.

# Sun and sports

## SUN

Protecting your child's eyes from **harmful UV rays** is of paramount importance especially when they are young. Separate sunglasses are the ideal way to provide your child with comfort and protection on sunny days or while on holiday.

We carry a variety of Junior sun ranges - **Bolle, Zoobug, Rayban, Mexx** and more. These are available both with and without prescription.

## SPORTS

If your child participates in contact sports you may want to consider a pair of safety spectacles for protection.

## SWIMMING

We stock a range and can order junior swimming goggles both with and without prescription.

Feel free to come in any time with your child to see one of the Dispensing Opticians. You are welcome to ring in advance if you would like to make a specific appointment.
